

Technology Accreditation Canada (TAC) delivers accreditation services for the engineering and applied science technology profession in Canada. Being an auditor provides a unique opportunity to share your industry experience and utilize your analytical techniques to assess whether an engineering technology or applied science program meets the standards of the profession. TAC is seeking auditors in the following disciplines:

- Bioscience/Biomedical
- Computer Systems / Computer/Software
- Chemical
- Environmental (specialization in water resources)
- Food Science
- Forestry
- Geomatics
- Information Management Systems / Information Technology
- Mechanical with Industrial stream
- Petroleum
- Engineering Design and Drafting Technology
- Welding

We are in dire need for bilingual candidates and these individuals are encouraged to apply. We also need to have more auditors from across Canada including British Columbia and Atlantic Canada. If you are interested in becoming a TAC Auditor and have at least five years of work experience in one of these disciplines, TAC provides online training and an honorarium upon completion of each audit. Volunteering as a TAC Auditor qualifies for a CPD credit.
