

Join our Team as a Structural Technologist at JOMA Engineering Group Inc.

#About Us

JOMA Engineering Group Inc. is a leading engineering firm specializing in structural design and analysis. With over 20 years of experience, we have established a reputation for delivering high-quality and innovative solutions across a wide range of industries. We work with a diverse range of clients, including commercial, residential, and industrial sectors, providing customized solutions tailored to their specific needs. As a company, we value collaboration, creativity, and continuous learning, fostering an environment where our team members can thrive and make a meaningful impact in the field.

#About the Job

As a Structural Technologist at JOMA Engineering Group Inc., you will play a crucial role in supporting our engineering team by providing technical expertise and assisting in the design and development of various structural projects. We work with a diverse range of clients, including commercial, residential, and industrial sectors, providing customized solutions tailored to their specific needs. Your attention to detail and strong analytical skills will be instrumental in ensuring accurate and efficient execution of project plans.

#Key Responsibilities

The role will consist predominantly of structural projects, such as commercial, industrial, and residential buildings. The following is a list of anticipated day-to-day tasks for this position:

- Collaborate with the engineering team to create detailed drawings and models using AutoCad and/or Revit.
- Collaborate with engineers to develop design concepts and solutions.
- Assist in the preparation of structural plans, cost estimates, reports and specifications.
- Participate in project meetings, providing technical insights and recommendations.
- Conduct site visits to gather essential data and assess project requirements.
- Review and interpret architectural plans and other relevant documents.
- Contribute to the development and implementation of design standards and best practices.
- Ensure compliance with applicable codes, regulations, and safety guidelines.
- Support project coordination and communication with clients and stakeholders.

#Qualifications

- Registered, or available for registration, as a PTech or CET with the New Brunswick Society of Certified Engineering Technicians and Technologists – NBSCETT.
- Diploma from a recognized and accredited Engineering Technology program.
- Proficiency in CAD software, such as AutoCAD, Revit, or similar, for the preparation drawings for commercial, residential, and institutional projects.
- Strong knowledge of building codes and regulations.
- Excellent problem-solving and analytical skills.
- Excellent communication skills, written and oral.
- Ability to read and interpret construction drawings and specifications.
- Detail-oriented with a focus on accuracy and quality.

#What We Offer:

At JOMA Engineering Group Inc., we believe in investing in our employees' growth and well-being. When you join our team, you can expect:

- **Competitive salary and benefits package:** We offer a competitive compensation package, retirement plans, and vacation time.
- **Professional development opportunities:** We are committed to fostering a culture of continuous learning and provide opportunities for professional growth through training programs and industry conferences.
- **Collaborative and inclusive work environment:** We value diversity and believe that a supportive and inclusive workplace leads to greater innovation and success. You'll be part of a collaborative team that encourages open communication and idea sharing.
- **Exciting projects:** At JOMA Engineering Group Inc., you'll have the chance to work on a wide range of interesting and challenging projects across various industries, allowing you to expand your expertise and make a meaningful impact.

If you are passionate about structural engineering, thrive in a collaborative environment, and are committed to delivering exceptional results, we would love to hear from you. Join us at JOMA Engineering Group Inc. and take your career to new heights!

This is an on-site full-time position. Interested individuals should apply by submitting a resume and cover letter to HR@jomaeng.com.

JOMA would like to thank everyone who submits an application for this position, however, only the candidates meeting the requirements and that are being considered will be contacted. Feel free to follow us on Facebook and LinkedIn for news about us and other future openings.
