

**One (1) Regular Position – Senior Project Manager  
Fredericton, New Brunswick, Canada  
Competition # E20986-2024**

At NB Power we are a team, committed to offering the best customer experience, ensuring energy security, and accelerating a sustainable clean energy transition. Why? Because we're New Brunswickers too, we care about our customers and future generations, and today we are actively looking for a new member to join us.

NB Power's Corporate Project Management team is responsible for providing project management services and management of capital project portfolios for the organization. As part of the team, the Senior Project Manager is responsible for providing project management and Transmission and Distribution construction expertise to support project execution in the most cost-efficient way, while ensuring the safe implementation of the project/program.

**Key Responsibilities include (\*not limited to):**

- Implementing assigned projects/programs including all aspects of project management methodology for successful delivery of projects/programs. These projects/programs are mainly focused on the Transmission and Distribution field.
- Leading and managing a team of 7 employees and 5-10 consultants providing project management and construction management services to the organization. Includes mentoring of junior team members and continued development of other team members.
- Identifying and implementing improvements in the planning and execution of the Transmission Line Life Extension program and the Pole Top Transformer Replacement program.

**Our ideal teammate will have:**

- Bachelor of Science in Engineering OR Diploma from a 2-year Technical Program OR equivalent education and experience.
- Professional Engineer Designation (P. Eng) would be considered an asset.
- Project Management Professional Designation (PMP) would be considered an asset.
- Seven years of experience in Project Management (candidates with a technical diploma will require two additional years of related work experience).
- Five years of working experience in Transmission/Distribution engineering/construction.  
OR  
Two years of working experience in Transmission/Distribution engineering/construction along with three years of working experience in industrial construction.
- Two years of experience in managing people and teams.
- Expert knowledge and proficiency in all aspects of Project Management i.e. schedule development, cost estimation, cost control, risk management, earned value management, contract management, quality management, safety and construction management.
- Strong written and oral communication skills.
- Effective planning, work scheduling and organizational skills.
- Ability to coach, mediate or negotiate disputes/differences of opinion and manage conflict resolution in an effective and timely manner.

- Document creation and editing (Microsoft Office products).

An equivalent combination of training and experience will be considered. Subject to competition response, the minimum qualifications may be modified.

An Eligibility List generated from this competition may be used to fill future vacancies at the same level within a period of up to 12 months.

Could you be our next team member? Apply today!

We care for our team, and as a member you will have access to:

- Health & Dental plans that provide flexible options to meet your needs.
- Health Spending Account, allowing for further flexibility.
- New Brunswick Public Service Pension Plan, offering retirement financial security.
- Wellness options, including our Employee Family Assistance Program.
- Benefits that allow for financial protection in the event it is needed.
- Various options for paid or unpaid leaves.
- Career development and growth throughout the organization.
- Competitive wages.

Please ensure a resume and a copy of your degree/diploma/certificate are attached to your online application.

NB Power will accept foreign credentials as long as they are considered acceptable by a recognized Canadian educational institution. Candidates with foreign education credentials are required to provide proof of Canadian equivalency. Any applicable fees are the responsibility of the candidate. For more information, you may refer to the Canadian Information Centre of International Credentials at Canadian Information Centre of International Credentials:
